

Description:

This course is designed to meet the training needs for initial attack incident commanders and company officers confronting wildland fires that threaten life, and property in the wildland/urban interface. Students will learn to operate safely and effectively in a wildland urban interface incident by using situational awareness, performing structure triage, using pre-planning tools, having a basic understanding of fire behavior and using strategy and tactics unique to the wildland urban interface environment.

Pre-Requisites:

Must be qualified as a Firefighter type 1. Instructor will verify qualifications before signing registration card.
