Lassen Community College Course Outline

GS 54 General Gunsmithing - Basic

3.0 Units

I. Catalog Description

This course is designed to teach the gunsmithing student to safely complete common everyday gunsmithing tasks in a shop setting. The topics that will be covered include: Hand tool use and modification, power tool use, basic firearms disassembly, installation of sling swivels and recoil pads, stock refinish and repair, and basic heat treating of steel. This course will consist of one hour lecture and six hours lab weekly.

Corequisite: GS 50

Recommended Preparation: Successful completion of ENGL105 or equivalent.

Transfer Status: Not transferable 17 Hours Lecture, 102 Hours Lab, 34 Out of Class Hours, 153 Total Hours of instruction Scheduled: Fall semester only

II. Coding Information

Repeatability: Not Repeatable Grading Option: Graded only Credit Type: Credit - Degree Applicable TOP Code: 095630

III. Course Objectives

A. Course Student Learning Outcomes

Upon completion of this course the student will be able to:

1. Safely complete common gunsmithing tasks to industry standard or better.

B. Course Objectives

Upon completion of this course the student will be able to:

- 1. Correctly use the appropriate tool to complete assigned task.
- 2. Complete common gunsmithing tasks to industry standard or better.
- 3. Demonstrate a basic understanding of the heat treatment of steel.

IV. Course Content

A. Outline of Topics

- 1. Hand tool use and modification
- 2. Power tool use
- 3. Basic firearms disassembly
- 4. Installation of sling swivels and recoil pads
- 5. Stock refinish and repair
- 6. Basic heat treating of steel

V. Assignments

A. Appropriate Readings

Trade manuals will be the primary reference sources, access will be provided by the instructor, may also include instructor handouts. Additional information resources will include product and use guides from industry manufacturers to enhance the learning process.

B. Writing Assignments

Students will be required to complete a set of notes covering lectures, labs and demonstrations. Notes will include appropriate diagrams, when applicable, for clarity of information. Assignments may be made involving repair, refinishing, and/or modifications to the studied firearm parts. Assignments will proximate problems actually encountered in the field. Performance levels must meet or exceed industry and/or shop specifications.

C. Expected Outside Assignments

Students will be required to complete two hours of outside-of-class homework for each hour of lecture. Pertinent supplementary literature and research assignments.

D. Specific Assignments that Demonstrate Critical Thinking

Assignments may include the design and fabrication of a tool, new ideas toward manufacturing techniques, new ways to assemble a gun, new modification techniques. Example: The student will be told what a tool must do and then must design and fabricate the tool without being given dimensions of other information.

VI. Methods of Evaluation

Traditional Evaluation

Student will be evaluated on:

- 1. Completion of assignments in a timely manner.
- 2. Completed assignments must meet or exceed industry standard.
- 3. Lecture notes including line drawings and pictures for clarification must be complete.
- 4. Final examination may include a practical demonstration of skills learned during the course.

VII. Methods of Delivery

Check those delivery methods for which, this course has been separately approved by the Curriculum/Academic Standards Committee.

Traditional Classroom Delivery

Correspondence Delivery Hybrid Delivery Online Delivery

Traditional Classroom Instruction

Lecture, discussion, audio/visual aids, demonstration, group exercises, guest speakers, lab, individualized programs and other as needed.

VIII. Representative Texts and Supplies

Required Firearms First Year

Safety breech bolt action rifle (Remington 700)
Flat breech bolt action rifle (Mauser 98, Ruger 77, Savage 110)
Other bolt action rifle of your choice
The following guns can be from the second year firearms list.
Handguns
A22 Rifles

2 Shotguns2 Other Centerfire Rifles

Required Tools and Materials
