

CCC System Strategic Plan

Challenges and Opportunities:

1. Demographic Change: A New California – immigrant, inland, aging
2. Educational Challenges – prepare the underprepared
3. Aligning State Educational Policies – K-12, CCC, CSU, UC, private
4. Capacity for Change – address policy constraints regarding private sector

Strategic Goals:

- A. College Awareness and Access
- B. Student Success and Readiness
- C. Partnerships for Economic and Workforce Development
- D. System Effectiveness
- E. Resource Development

Relevance for LCC

Identify our own target mix of educational goals

- Consider ideal ‘pyramid’, CCCCCO demographics, service area demographics

Identify our current mix

Identify strategies to close the gaps: outreach/marketing, offerings (what/when), services

More flexible and efficient ways to deliver instruction

More flexible and efficient ways to deliver services

- Consider high technology (e.g., online courses and WebAdvisor)
- Consider low technology (e.g., the Reg-To-Go concept)

Cooperation & collaboration

- With agencies, employers, and other providers in our service areas
- With CCCCCO

Accountability – management of data life cycle: capture, storage, retrieval, interpretation

- Comply with (changing) provider/stakeholder requirements, e.g. ARCC
- Maximize apportionment credit for what we’re already doing
- Improve our research capability for successful planning

Staff development for:

- Innovation
- Service to diverse populations (‘cultural competence’)
- Best practices
- Technology
- Leadership
