Brian Murphy

Garrett presented the members with a draft of the handbook for their review. There were not enough members for a quorum, so no action was taken on any items.

The following topics were discussed during the meeting:

Garrett is hoping to arrange a tour for the Business students with Google and Tesla.

Gunsmithing and Auto are exploring new Entrepreneur programs.

There was discussion on what classes are being dropped and what classes are being expanded.

Discussion on how the Administrative office degree is being re-done to meet the needs of today's technology.

The Business Plan competition between the high schools with FBLA Brian Murphy gave a review of the Business classes being taught at High Desert State Prison and the plans to expand the program to CCC.

The program at High Desert is proving to be successful and is being fully supported by the staff at the facility.

Brian also proposed that in the future he would like to have a competition between the incarcerated students using the Business Plan ideas.

There is a possibility that more grant money may become available in the future to help further expand the incarcerated program.

In the fall 2016 11 sections will be taught at High Desert State prison.

Andy discussed some new computer programs /software he would like the business department to pilot. Inter-link was one of the programs he discussed. This is a new and progressive way of interacting with students and also for the faculty to grade and return work. It is a way also student can turn in their work and retrieve their work from any location.

Garrett stated the IPR will be ready for review in August. He would like the committee to possibly meet again in late August or early September.

Meeting adjourned.
