### D. Assignments that Demonstrate Critical Thinking

1. The student will analyze the components of individual skills and will demonstrate the appropriate performance of the skills.
2. The student will analyze individual and team strategies and select and apply the appropriate skill to competitive basketball situations.

## VI. Methods of Evaluation

### Traditional Evaluation

**Example #1:** To demonstrate performance of basketball skills, the instructor will observe and evaluate student performance in drills and competitive situations. Competency is demonstrated through each student's ability to perform the skills necessary in a majority of drill, scrimmage and competitive situations.

**Example #2:** To demonstrate analysis and response to basketball situations, the instructor will observe and evaluate each student's decision-making ability to make correct strategy decisions and apply the appropriate technique in a majority of common situations with increasing proficiency depending on enrollment (beginning, intermediate, advanced).

### Hybrid Evaluation (For Emergency Use Only)

Between the two delivery methods, students will be expected to participate in personal and team skill development at least as much as would be expected in traditional face-to-face delivery. Students will be evaluated based on development of and performance of skills during practices and competitions. In the online environment, students will provide a video or demonstrate skills live online to regularly receive feedback and be evaluated. If assignments are given online, students will be expected to complete assignments and activities equivalent to in class assignments and activities for the online portion of the course. Electronic communication, both synchronous and asynchronous (chat/forum/email) will be utilized for participation and to maintain effective communication between instructor and students.

## VII. Methods of Delivery

Check those delivery methods for which, this course has been separately approved by the Curriculum/Academic Standards Committee.

Traditional Classroom Delivery  Correspondence Delivery

Hybrid Delivery  Online Delivery

### Traditional Delivery

1. For individual skills, the instructor will demonstrate the proper technique and then execute drills with accompanying feedback to provide repetition as students gain mastery of the skill.
2. For strategy skills, the instructor will use diagrams and demonstrations to introduce a strategy and then conduct group drills to simulate and practice the skill strategy.

Utilizing scrimmage and game situations, the instructor will evaluate each student's selection and execution of the appropriate strategy responses. Group and individual feedback will be used throughout drill, simulation, scrimmage, and game situations.

### **Hybrid Delivery (For Emergency Use Only)**

Between the two delivery methods, students will be expected to participate in personal and team skill development at least as much as would be expected in traditional face-to-face delivery. A combination of traditional classroom and online instruction will be utilized. Each semester a minimum of 20 hours will be taught face-to face by the instructor and the remaining hours will be instructed online through the technology platform adopted by the District. Traditional class instruction will consist of instruction, demonstration, exercises/assignments, and practice drills. Online delivery will consist of information, exercises/assignments, and discussions, with additional extra resources and other media, including video clips for performance of skills, as appropriate
