

LASSEN COMMUNITY COLLEGE

EDUCATIONAL MASTER PLAN

2015-2020

January 26, 2015

Section IV – Five Master Plans

1. Educational Master Plan and Academic Staffing Plan

I. INTRODUCTION

From its establishment in 1925, Lassen Community College has provided a balance of educational program offerings. Beginning in 1935 with the Forest Technology program, the college has developed and revised a mix of academic and career technical programs appropriate to the mission of California Community Colleges. Originally built as one of the state's "small but necessary" campuses, the college successfully provides comprehensive educational programs in spite of its small size.

The college is committed to providing quality education offerings that meet the diverse needs of its student population. The college currently offers thirty-seven (37) associate degrees, seventeen (17) certificates of achievement, and fourteen (14) certificates of accomplishment within twenty-five (25) credit programs. An additional one (1) new associate degrees for transfer was added in 2013-2014. Additionally, the college provides basic skills instruction in writing, reading and mathematics. The Curriculum/Academic Standards Committee, a subcommittee of the Academic Senate, is responsible for insuring the integrity and quality of Lassen Community College curriculum and programs.

The college offers Academic Associate Degrees in: Natural Science, Physical Education, Social Science, University Studies Associate Degrees in Agriculture, Allied Health, Biological Science, Humanities, Mathematics/Physical Science, Natural Science, Physical Education, Social Science, and Associate Degrees for Transfer in Administration of Justice, Anthropology, Art History, Business Administration, Early Childhood Education, Geology, History, Sociology, Studio Art, English and Psychology. The associate degrees offered in career technical specializations are Accounting, Administration of Justice, Agriculture Science and Technology, Automotive Technology, Childhood Development, Digital Graphic Design, Drug and Alcohol Paraprofessional, Fire Technology, Firearms Repair, General Gunsmithing, Human Services, Office Administrative Assistant, Vocational Nursing, and Welding Technology. In 2013-2014, 202 associate degrees, 109 certificates of achievement and 43 certificates of accomplishment were awarded.

II. ACADEMIC PLANNING COMMITTEE

The Academic Planning Committee, comprised of division chairs, the vice-president of academic services, the associate dean of institutional effectiveness, dean of student services, curriculum committee representative, and a management representative, is charged with the responsibility of addressing instructional planning needs for the college. The committee develops the Educational Master Plan and meets to discuss and make recommendations regarding present and future needs to sustain academic excellence.

Guided by the mission statement and strategic goals approved by the Governing Board, the Academic Planning Committee relies on recommendations from instructional program reviews to

inform the development of the Educational Master Plan. The 2015-2020 plan is derived from recommendations found in the following instructional program reviews: 2012 - Fine Arts/Humanities; 2013 – Basic Skills; 2013 – Developmental Studies; 2013 – Gunsmithing; 2014 - Natural Science/Mathematics; 2014 - Physical Education; 2014 – Administration of Justice/Correctional Science; 2014 - Business; 2013 - Automotive Technology; 2013 – Fire Technology; 2013 – Welding Technology; 2013 - Work Experience; 2013 - Licensed Vocational Nursing; 2014 – Digital Graphic Design; and 2013 - Child Development. Additionally information from the 2013– EOPS/CARE; 2013 – ILP; 2013 – Counseling; 2013 – Kinship; 2013 - Human Services; 2010 - Distance Learning; 2010 - Community Services; and 2011 - Contract Education Non-instructional Program Reviews are included.

The Educational Master Plan consists of five Annual Action Plans covering each Academic Year from 2015-2016 to 2019-2020. The Annual Action Plans are reviewed and updated annually in the fall term. The five-year plan is presented to Consultation Council by the Academic Planning Committee for approval, prior to informing the development of the Facilities, Institutional Technology, Human Resources, Student Services, and Institutional Effectiveness Master Plans in the subsequent spring term.

III. 2015-2020 ACADEMIC ENCOMPASSING ELEMENTS

The Educational Master Plan articulates a pathway to maximize the student experience through five all-encompassing elements: Professional Development, Capacity Building, Program Development, Outreach Implementation, and Vision: Institutional Development. This pathway is the driving force behind all college planning and implements the college mission statement, identifies recommendations made through instructional program reviews, and utilizes strategic goals approved by the Governing Board.

Element I – Professional Development

People are our most important asset. In this regard, it is imperative that faculty have support to maintain currency through discipline-specific development opportunities in addition to training on emerging technologies, curriculum design, assessment of student learning outcomes, and adult learning theory.

Element II - Capacity Building

Today's educational environment requires colleges to deliver curriculum in alternative and innovative ways. As a result, the college recognizes the need for relevant technology. Throughout the next five years, the college will build this capacity in classroom technology, increase the number of classroom computer labs, and provide professional development. Since the adoption of AB 1725, faculty have been expected to participate in out-of-class duties to a much greater extent than ever before. Consequently, job descriptions for faculty need to be amended to include interest in participation in responsibilities outside of the classroom.

Element III - Program Development

Strengthening and enhancing existing programs as well as developing new programs will sustain Lassen Community College's educational leadership in northern California. Initial career technical programs identified for enhancement are nursing, automotive and welding. Enhancement of additional programs will be identified through the instructional program review process. The strengthening of transfer programs will occur through the development of additional associate degrees for transfer (SB 1440).

Element IV – Outreach Implementation

Lassen College serves a large geographic region and has a commitment to provide necessary training opportunities to all of its constituents. Currently under consideration, there are three different approaches to meet community needs: contract education, continuing education and community service. In addition to expanding educational opportunities to our immediate community members, Lassen College is also committed to student diversity and would like to increase our international student base.

Element V – Capital Development

The pathway elements provide the foundation for continued institutional development. The first four elements give the College the capacity to examine the feasibility of a proposed vision and bring it to fruition. Prospective visions identified thus far are: infrastructure upgrade (air conditioning, repair, remodel of instructional spaces), allied health institute, expanded agriculture area (indoor arena, safety fencing, pipe corrals, tack rooms, wash rack area, bleachers and landscaping), Herlong farm expansion, public safety training center, expanded gunsmithing facility (including indoor shooting range), upgraded fitness and athletic facilities (swimming pool, track, soccer and baseball fields) and performing arts center.
