## CTE/Transitions

The Career Technical Education (CTE)/Transitions program offers high school students the opportunity to take an approved technical preparation class during their high school years and receive Lassen Community College credit. Students are able to develop high academic and employability competencies through approved technical preparation and instruction. This opportunity eases the transition from the high school to the college and offers an incentive for students to continue their education at a more advanced level.

After completing an articulated 2+2/CTE/Transitions class with a grade of “B” or better at the high school level, a high school student qualifies to receive earned credit at Lassen Community College in the articulated course(s) without having to repeat the course at the college level by following these requirements:

- Submit high school transcripts and required Student Request for Credit 2+2 form (on back) to the LCC Admissions and Records Office. Effective summer 2015, registration fees are waived for classes taken while in high school (AP 5011 and AP 5030). A minimal health fee will continue to be required.

CTE/Transitions 2+2 credit is only available up to five years after high school graduation. “Credit by Exam” is granted based on articulated course content and exams or alternate assessments. Students must be in good standings and complete all requirements.

For more information on the CTE/Transitions 2+2 program visit the Lassen Community College Counseling Office or speak with your high school counselor.

2015/2016

P. O. Box 3000, Susanville, CA 96130    530.257.6181    or    530.251.8895
